HORUS

THE NEW 2014 HORUS Mallet

Lighter for a faster swing.

Stronger to handle the high impact of golf croquet.

More precise for grip, sight and ball alignment.

These Egyptian style mallets are made with modern materials that take unnecessary weight out of the design and put it into the head where it counts. This produces more head speed and momentum with a lighter mallet, improving stun and jump shot performance.

Design Specifications:

- Overall weight: 2 lbs, 6 oz .
- Overall Shaft length: 34 inches
- Head 10 inches L X 2.5 W X 2 H
